

NC E-Procurement Upgrade Go-Live Postcard #14

Non-Integrated Entities Edition

Updated Commodity Codes The State of North Carolina Division of Purchase and Contract has **updated the list of NIGP Commodity Codes** on their [website](#). A list of the major changes from the old commodity codes to the new commodity codes has also been posted.

Training Materials Please remember that all the training materials you may have used to help you transition from the old NC E-Procurement to the upgraded system **will continue to be available** on our [training page](#). These job aids and WBTs can be very useful to help train new users and are also a wonderful resource to help refresh your knowledge of NC E-Procurement.

Note: Many of these documents are password protected. Please contact the NC E-Procurement Help Desk at 888-211-7440, option 1, or at ephelpdesk@its.nc.gov for the training login information.

Newsletters Through the upgrade we have used both newsletters and postcards to communicate dates, updates, opportunities and deadlines. This postcard will be the last weekly postcard but we will continue to share important information with you through our newsletter.

Feature Focus: Adding a New Tab You can also add a new tab to access information more easily. If you have a few Saved Searches that you look at frequently, rather than running each one individually, you can add them to their own tab and see the results at the same time.

This new tab has Saved Searches portlets so these searches can be seen just by clicking on the tab:

The screenshot shows the 'Saved Searches Dashboard' in the NC E-Procurement system. It features a 'Search' portlet on the left with a dropdown menu set to 'eRequisition' and an 'ID' input field. The main area contains two tables: 'Requisition Search' and 'Requisitions in Submitted'. The 'Requisition Search' table has columns for ID, Type, Date Created, Status, Title, and Total. The 'Requisitions in Submitted' table has columns for ID, Type, Date Created, Status, Title, and Total. A yellow callout box with an arrow pointing to the 'Requisition Search' table contains the text: 'You can create meaningful searches and add them to your new tab for quick reference.'

Follow-Up

We sent this postcard to NC E-Procurement Non-Integrated entities.
